

CITYBAC®

DUAL LID

DESIGNED FOR FLEXIBILITY

SULO®

DESIGNED FOR SEAMLESS USE

THREE OPENING POSITIONS

85° auto-close for emptying, plus 135° and 210° locking positions for user-friendly access.

LARGE CUSTOMIZATION AREAS

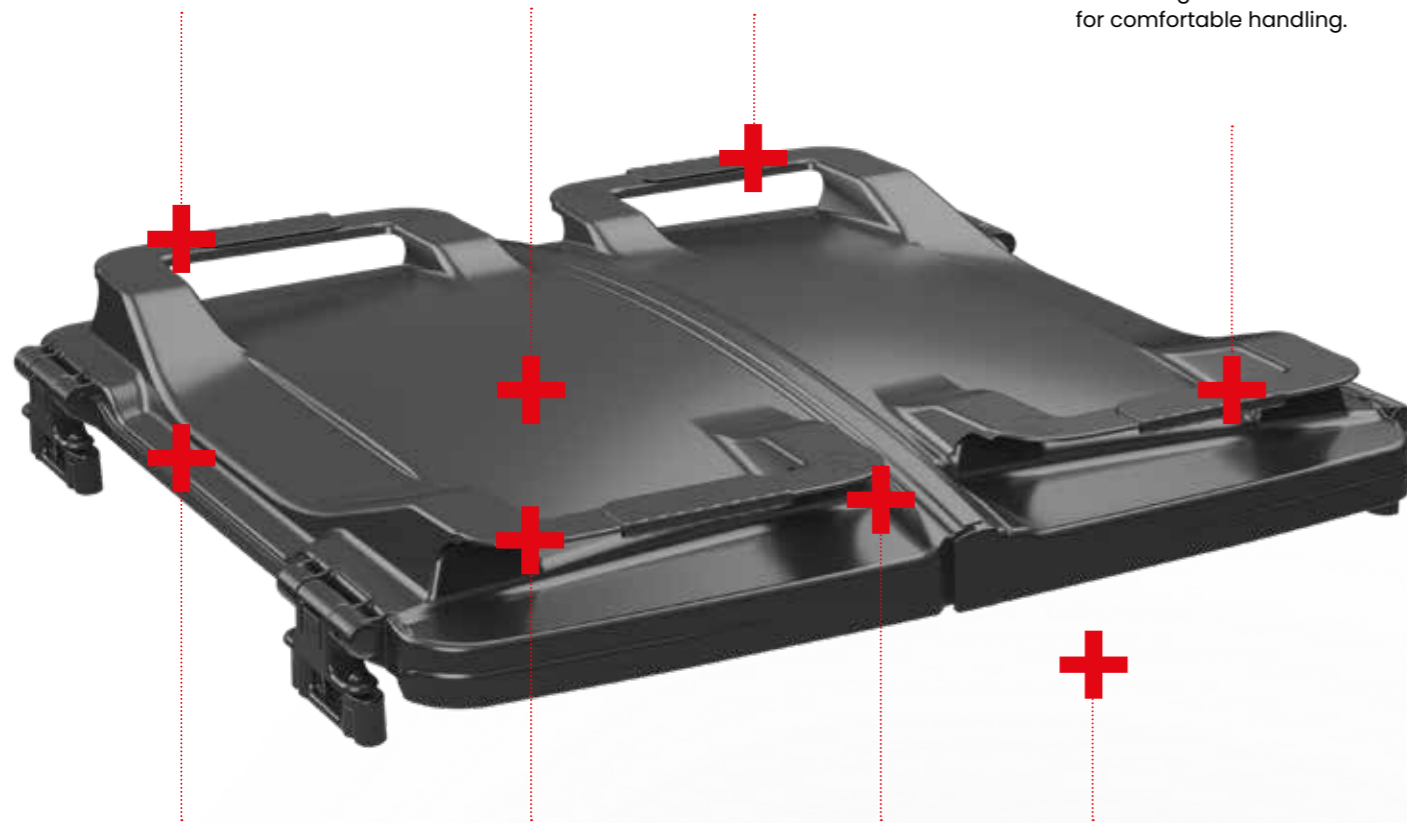

For stickers- ideal for branding or instructions.

FRACTION IDENTIFICATION CLIPS

Customizable colour Clips for easy fraction sorting.

GRIP THROUGH HANDLES

Comfortable, secure handles on both sides, perfectly sized for easy use by crews and users. Height of the Handles for comfortable handling.

WATER RESISTANT

Overlapping flaps seal the lid tightly when closed. When opened, the raised hinge zone and integrated water nose divert rainwater away- so nothing enters the bin.

NO CLOSING ORDER

Both lid parts operate independently - no need to close in a specific order.

OPENS FROM BOTH SIDES

Perfect for tight spaces: Lid can be opened from either side, even when placed against a wall.

OPTIONAL WITHOUT DIVIDER WALL

Dual Lid works with or without an internal divider - full flexibility.

+LID OPTIONS

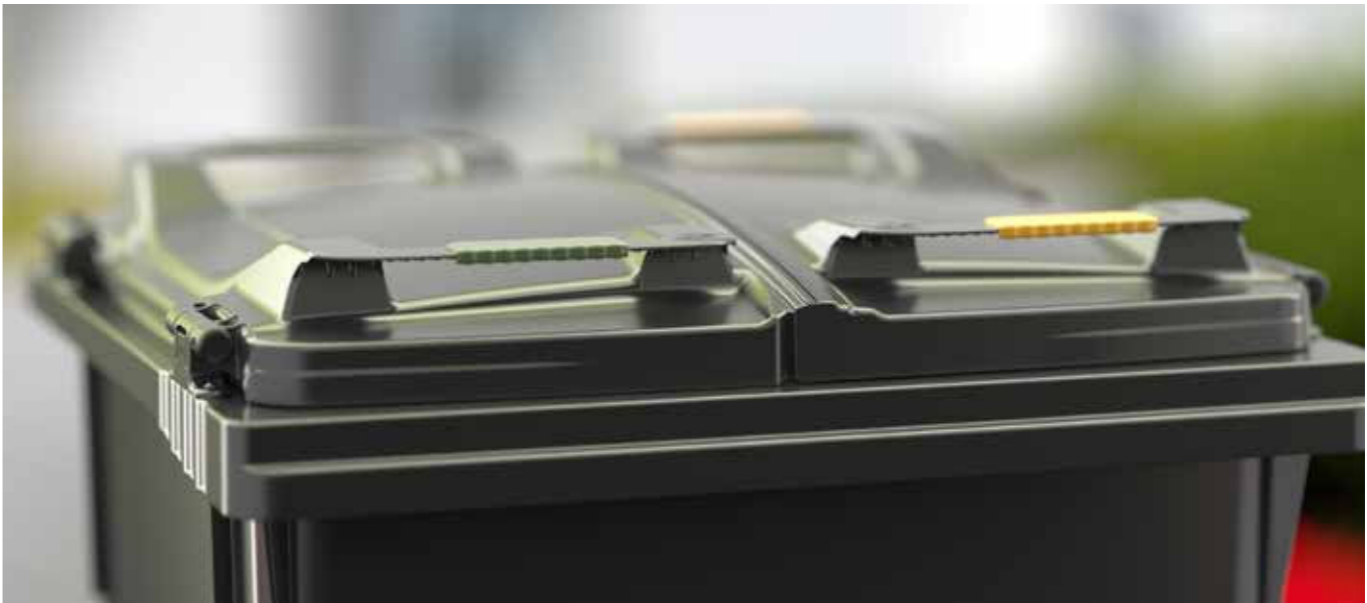

+DIVIDER WALL

Optional with or without Divider Wall

DESIGNED FOR FLEXIBILITY

The Dual Lid simplifies waste handling with three flexible opening positions and independent access from both sides—perfect for tight spaces and fast workflows. Customizable labeling areas and colour-coded clips ensure easy fraction sorting and clear identification. Ergonomic handles provide comfortable, secure grip, while smart water diversion keeps contents dry. Available with or without a divider, it adapts to any waste management need.

IDENTIFY. SIMPLIFY. CUSTOMIZE.
